Part 1: **Why Most Short-Form Content Fails**

The goal isn't to go viral. It's to attract and convert ideal clients through a repeatable system. To do this follow:

THE 3-SECOND RULE:

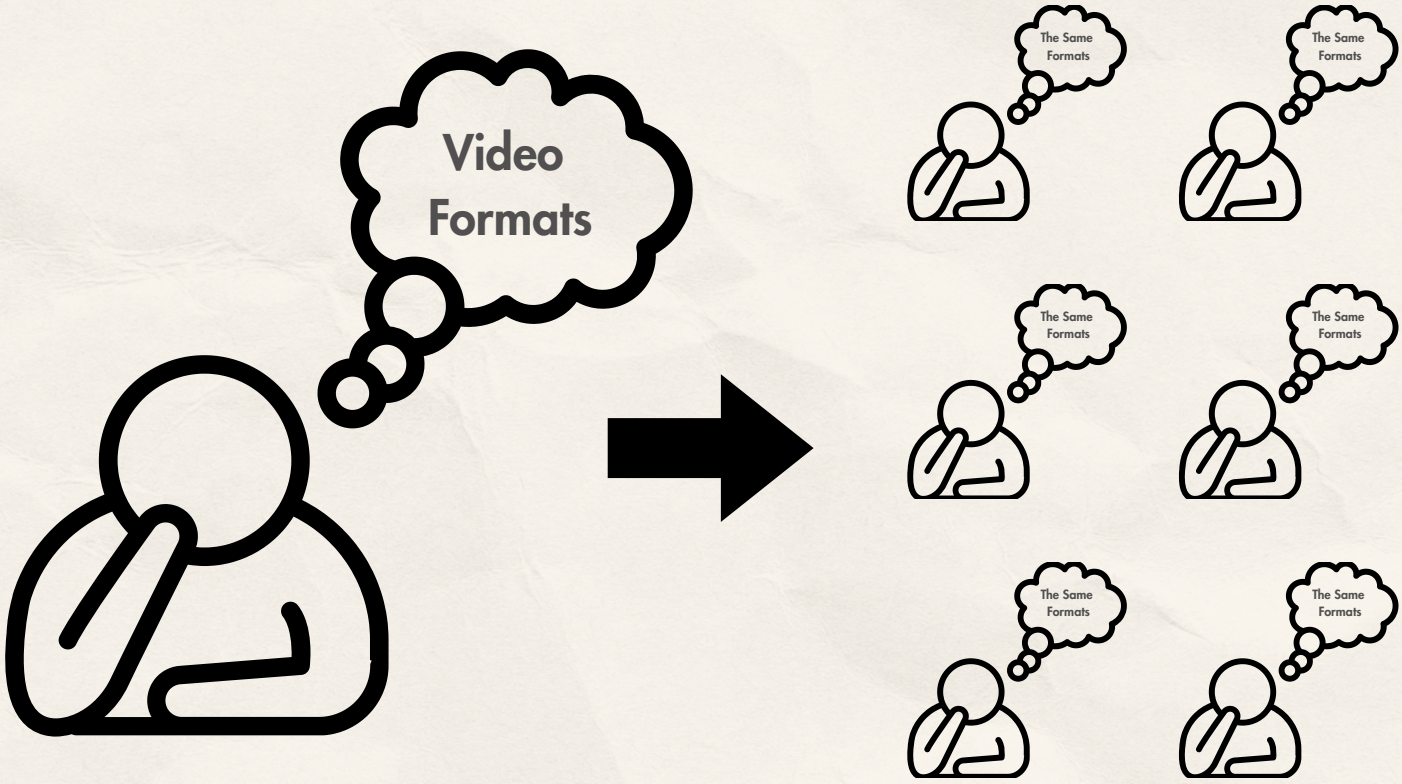
0–3s| The Hook: A pattern-interrupt to stop the scroll.
(Use something bold do not waste time introducing yourself)

3–20s | The Body: A high value, story, or opinion.
(Keep your delivery punchy and skip all the fluff.)

Last 3s| The Bridge/CTA: A seamless next step.
(Tell them exactly what to do next.)

Part 2: **Video Frameworks That Get Clients**

Step 1: Come up with a variety of different video formats.
Step 2: Use those same 3-5 formats again.
Step 3: Again.
Step 4: Again.
Step 5: You get the point.



We will share with you 3 formats that will always work, and example script templates to use.

1. Myth vs. Fact

Purpose: Create instant authority by destroying bad advice.
Formula: Call out the lie + Share the downside + Give the solution.

Script Templates:

[0–3s HOOK]: "Stop doing ***[Common Advice]*** if you actually want to ***[Desired Result]***."

[3–15s BODY]: "Most ***[Target Audience]*** think doing ***[Bad Habit]*** is the key. But in reality, it's costing you ***[Specific Loss/Cost]*** because ***[Reason]***. Instead, the top 1% of ***[Niche]*** focus on ***[Correct System]***."

[15–30s CTA]: "If you want the exact checklist we use to set this up, comment ***[Key Word]*** below."

(Pro-Tip: Use DM automation so you can give instantly while they are still paying attention.)

2. This or That

Purpose: Simplify decisions and position your method as the best.
Formula: Contrast the old way with your way.

Script Templates:

[0–3s HOOK]: “There are two ways to ***[Achieve Goal]*** in 2026. One takes ***[Long Timeframe],*** the other takes 5 minutes.”

[3–15s BODY]: “Way #1 is ***[Old Method]***—it requires ***[Frustrating Step]*** and usually ends in ***[Bad Result].*** Way #2 is ***[Your way].*** You simply ***[Action Step 1]*** and ***[Action Step 2]."***

[15–30s CTA]: "Drop a comment with ***[Key Word]*** and I’ll send you the visual breakdown."

3. The Founder Story / Proof

Purpose: Build trust.
Formula: Share a real mistake + The realization + The fixing system.

Script Templates:

[0–3s HOOK]: "How we helped a local ***[Niche Business]*** add ***[Specific Metric/Result]*** in 30 days without spending a dime on ads."

[3–15s BODY]: "When ***[Client Type]*** first came to us, they were struggling with ***[Problem]***. We made one small tweak to their ***[Process]***: instead of ***[Old Action]***, we switched them to ***[New Strategy]***."

[15–30s CTA]: "Want the exact blueprint we built for them? Comment ***[Key Word]*** and I'll send it over."

4. The Lead Magnet Hook

Purpose: Get leads by giving away a free guide.
Formula: State the problem + Show the result + Grab leads.

Script Templates:

[0–3s HOOK]: "I mapped out our exact ***[Name of Asset/Process]*** into a 1-page cheat sheet."

[3–15s BODY]: "If you're a ***[Target Audience]*** trying to ***[Goal]***, this eliminates ***[Biggest Pain Point]*** so you don't have to waste time ***[Annoying Task]***."

[15–30s CTA]: "Comment ***[Key Word]*** right now and I'll DM you the direct download link."

_____ **Batch your production.** Shoot all your videos in one sitting. *(Pro tip: Change your shirt between videos so they look like different days)*

_____ Publish live on Monday, Wednesday, and Friday at 9:00 AM to 12:30 PM.

Posting days and times are mostly irrelevant. Staying consistent is what matters.

The Setup:

The Room: Find a quiet space with no background noise.

The Light: Face a window or sit in a well-lit room so your face is bright and clear.

The Camera: Wipe your phone lens with a soft cloth. Turn on the grid lines in your iPhone settings to keep yourself centered.

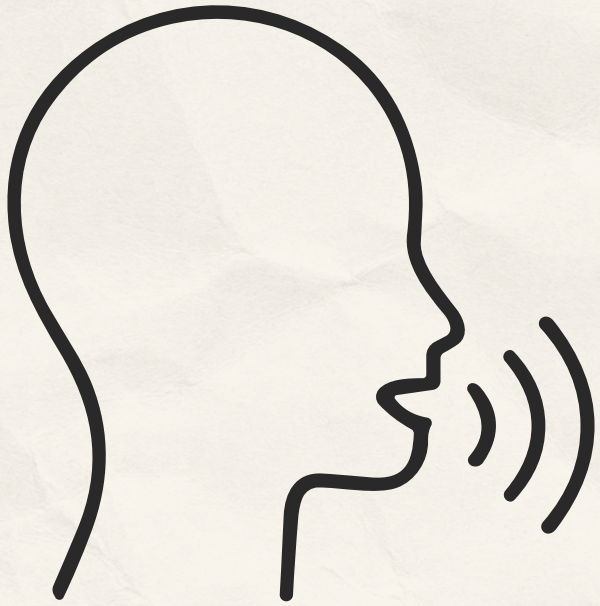
People don't care about perfection, they care about value. A natural, honest delivery beats a robotic script every single time.

The Delivery:

Energy: Speak with 110% energy and use your hands when you talk. This makes you look natural and inviting on screen.

The 1-Sentence Method: Read one sentence from your script, look at the lens, say it out loud, and pause.
Repeat for the next sentence, then cut out the pauses during editing. *(This way you don't have to memorize a long script)*

Eye Contact: Look straight into the camera lens, not at your own face on the screen.



Speak Like a Real Person

DO Use Their Words: Swap generic buzzwords for the exact language your clients use.

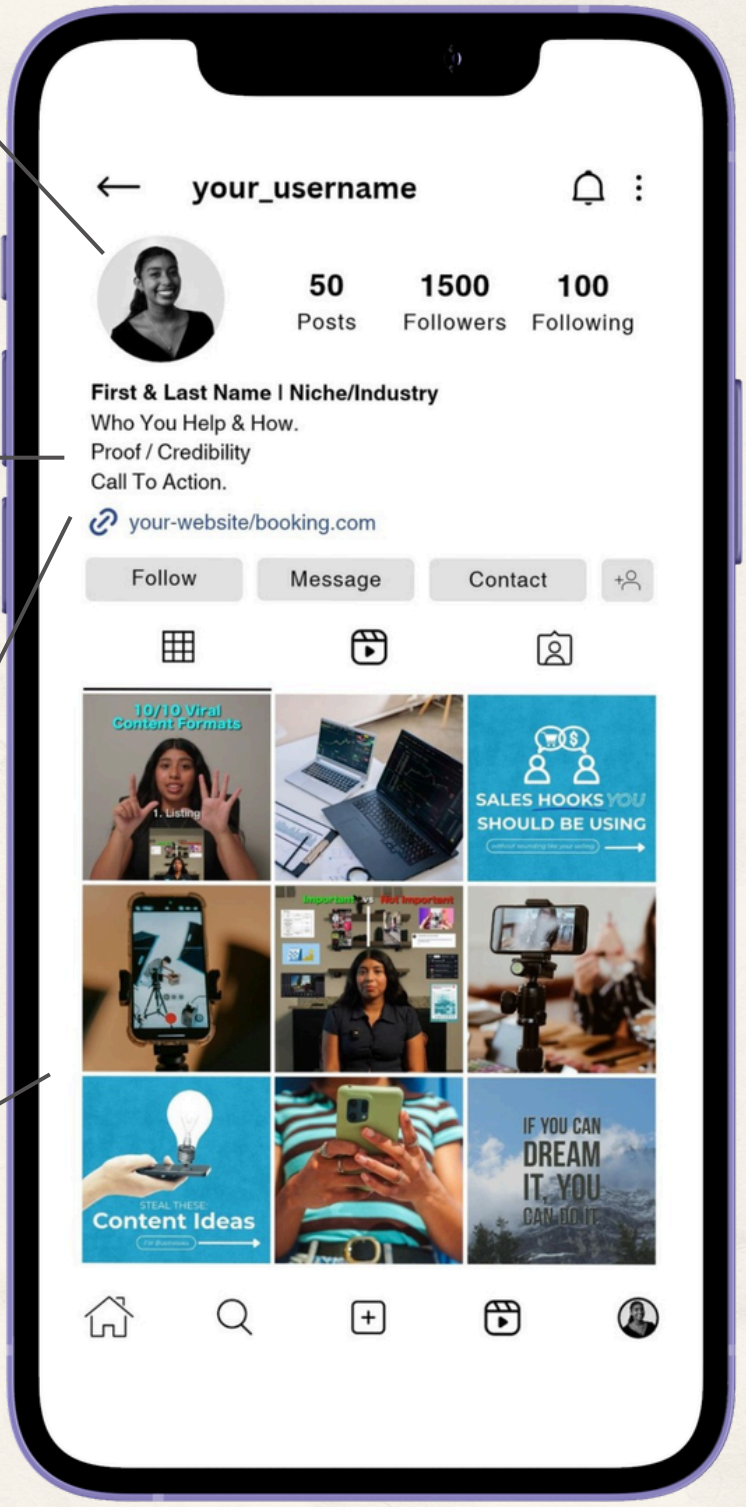
DO Share Your Experience: Base your content on real questions and client conversations.

DO Be Natural & Energetic: Speak with extra energy, use your hands, and talk like you're across the table from a friend.

BONUS: **Profile Setup Guide**

Clear Head Shot: Smiling or looking at the camera. Use a clean or solid background so your face stands out.

Never use a logo or group photo—people follow people, not icons.



Line 1: What You Do: "*Helping grow with short form."*
Line 2: Your Proof: *"Founder @__|10M views generated"*
Line 3: The CTA: *"Get the free blueprint 👇"*

One Single Link: Point people to just one link.
(Be specific, don't just send them to a home page)

Alternate every post on your grid:

Post 1: Photo/video frame of your face.

Post 2: Graphic/cover with bold text.

Post 3: Photo/video frame of your face.

Never place two face photos or two text thumbnails right next to each other.
